>>> PROFILE

I'm a Full-stack Web Developer from the Philippines, who loves to work with diverse industries and users. Developing solutions not just by knowing the wants but also understanding the needs of the clients.

A dedicated and efficient web developer with 8 years of total experience in full-stack web application, mobile responsive design and customer relationship management system development. Capable of working with a variety of web development technologies, and managing databases. Valuable team member who has experience diagnosing problems and developing solutions. Highly motivated individual, eager to learn new things, innovative and flexible.
